ANDORRA

Fall 1932

Spring 1933

UNDER the shade of Oaks, with a carpet of Japanese Spurge, Rhododendrons, Azaleas and shade-enduring plants have been massed with superb effect. Through this evergreen carpet spring flowering bulbs are effectively used.

ANDORRA INN

THIS OLD COLONIAL HOUSE "1756"

Ridge and Conshohocken Pikes,
Half Mile East of Conshohocken, Pa.

One hundred and seventy-five years ago (1756) there was located at Harmonville, at Butler Pike and the Ridge Road, then known as King's Highway, a store and tavern property which was widely known as "John Yerkes' Store" and in 1803 purchased by his Son, Harmon Yerkes, for whom the town was named.

This property, located at the northwestern end of the Andorra Nurseries, came into our hands and wishing to improve it to add to the attractiveness of the community, we turned it into a quaint, but modern Colonial Inn. The wide floor boards, the old doors and windows, unusual fire places and innumerable wall closets were left untouched. Even in the windows are panes of the old hand-made glass, and the Inn has been carefully furnished, so it has the charm of "years ago."

Outside of the building itself, an item of interest is the planting of unusual trees and we will in the future continue a type of Arboretum planting, furnishing the guests of Andorra Inn an opportunity to see rare trees, correctly named. An unusual tree, The Osage Orange, probably planted early in 1800, stands on the west side of the Inn.

Directions for Ordering

Nomenclature
1923 Edition Standardized Plant Names

Give explicit directions as to address and mode of shipment. Shipments will be forwarded exactly as directed, but when without instructions, we will use our judgment in forwarding.

ALL ORDERS ARE ACCEPTED SUBJECT TO prior sale, and to conditions of stock at delivery date, under the following terms and conditions:

PRICES in this catalog cancel all previous lists and quotations and are subject to change without notice. **Prices include packing, except on special bulky pieces, for which cost of packing will be extra, and are f. o. b. our shipping station, or for local delivery on our regular routes.**

STOCK SPECIALLY SELECTED by customers at the Nurseries will be charged according to the value of the trees chosen, irrespective of catalog list price.

RATES.—Lots of 5 and 50 of a variety will be furnished at the 10 and 100 rates respectively.

TERMS, CASH WITH ORDER, except to persons who satisfy us as to their responsibility, when for your convenience **accounts will be opened due in 30 days from date of invoice.**

OVERDUE ACCOUNTS subject to interest at 6 per cent.

Forwarding and Shipping

SHIPPING SEASON opens about March 1st in the Spring and August 15th in the Fall.

WE WARRANT all goods to be true to name, full count, up to grade, and in good condition when shipped.

GUARANTEE.—We give no guarantee on the life of stock, as we have no control after it leaves our hands, and we will not replace stock without charge.

CLAIMS must be made within **five days** after receipt of goods. Stock delivered as per order and in good condition is not returnable.

GOODS IN TRANSIT.—All goods are at purchaser's risk after they are delivered to the forwarding companies and we receive their receipt for the shipment in good condition.

CLAIM FOR DAMAGE WHILE IN TRANSIT MUST BE MADE AGAINST THE DELIVERY COMPANY. Have delivery agent note the damaged condition on the freight bill, and present your claim promptly to the transportation company.

CHESTNUT HILL, PHILADELPHIA, PA.

The Planting Plans are as Important as the Building Plans

There is no doubt that the pleasure we derive from the contemplation or possession of living plants is increased a hundred-fold by skill in their arrangement in the places where they are finally to grow.

The greatest value that a plant can have is certainly not that of a museum specimen, but lies rather in its power to add comfort and attractiveness to the places where we live, work and play.

To all who have planting to do, from the simplest bit to the development of a large place, Andorra Nurseries strongly recommends the advice of a trained Landscape Architect.

From his experience in the use of plant material he can suggest those combinations and arrangements which will be fitting and wise to prevent costly and discouraging mistakes. Planning ahead is a guarantee of success.

An Invitation to Andorra

Those interested in trees and plants out-of-doors are always cordially welcome at Andorra. Excellent highways through this beautiful rolling section of Pennsylvania, with its charm of Colonial manor house and country-place, offer inviting roads from every direction to visitors in motor cars.

BY MOTOR from Philadelphia, go out the Parkway; along the East River Drive, continuing up the Wissahickon and Lincoln Drives to McCallum Street, turn left and follow through to dead end, turning right on Mermaid Lane and follow good road, turning left on St. Martins Lane, follow through turning right over bridge at Highland Station, continuing three blocks to Germantown Avenue. Turn left to City Line and then left one square to the Nursery.

TRAIN CONNECTIONS over the Chestnut Hill branches of both the Pennsylvania and Reading Railroads make Andorra a two-hour run out of New York and a half hour from the heart of Philadelphia to Chestnut Hill Stations; from Chestnut Hill a ten-minute ride on the City Line motor bus to City Line brings you within one block of the office.

EVERGREEN TREES

ABIES concolor.

WHITE FIR. Tall, rapid growing; hardy rich silvery needles. For specimen or groups.

		Per 10
1½ to 2 ft.Each \$4 50	\$30 00
2 to 2½ ft.	48 00
2½ to 3 ft.	67 50
3 to 3½ ft.	75 00
4 to 5 ft.	100 00
Specimens.	7 to 9 ft. ..Each \$35 00 to 50 00	

A. nordmanniana.

NORDMAN FIR. Tall; dark, glossy green foliage. Most useful as a specimen.

2½ to 3 ft.Each \$10 00
3½ to 4 ft. 15 00
4 to 5 ft. 17 50
5 to 6 ft. 25 00
6 to 7 ft. 35 00
8 to 10 ft.\$65 00 to 100 00

Specimens. Broad, spreading trees, from 10 to 14 ft. in height.\$125 00 to 250 00

A. veitchi.

VEITCH. FIR. Tall slender growth. Foliage deep green—the under side glaucous, giving a bluish effect. Distinct and handsome.

4 to 5 ft.Each \$12 50	100 00
5 to 6 ft.	125 00
6 to 7 ft.	..	200 00
8 to 10 ft.	35 00
10 to 12 ft.	50 00

CEDRUS atlantica.

MOUNT ATLAS CEDAR. Airy pyramidal tree with dark green foliage. Splendid as a specimen.

2½ to 3 ft.Each \$8 50
3 to 3½ ft. 10 00
4 to 4½ ft. 12 50
5 to 6 ft. 15 00
6 to 7 ft. 17 50
7 to 8 ft. 25 00

Specimens. 20 to 30 ft. ...\$125 00 to 350 00

C. atlantica glauca.

BLUE MOUNT ATLAS CEDAR. Airy pyramidal tree with silvery-green needles. Use as specimen.

Specimens. 8 to 25 ft. ..Each \$75 00 to 350 00

C. libani.

CEDAR OF LEBANON. Broad, spreading habit; foliage bluish green.

3 to 3½ ft.Each \$10 00
3½ to 4 ft. 12 50
4 to 4½ ft. 15 00
4½ to 5 ft. 17 50

CHAMAECYPARIS (Retinospora) filifera.**THREAD BRANCHED JAPANESE CYPRESS.**

Medium height; foliage deep green. Valuable in formal work, in mixed evergreen plantings, as specimens, screen groupings and hedges.

		Per 10
2 to 2½ ft.	Each \$4 00	\$32 00
2½ to 3 ft.	6 00	48 00
3 to 3½ ft.	9 00	70 00
3½ to 4 ft. Heavy	15 00	
4 to 4½ ft. Heavy	17 50	
Specimens. 5½ to 6 ft. Heavy	20 00	180 00
Specimens. 6 to 7 ft. Heavy	25 00	225 00
Specimens. 7 to 8 ft.	30 00	270 00
Specimens. 8 to 12 ft. ..	\$35 00 to 100 00	

C. filifera aurea.

GOLDEN THREAD BRANCHED. Growth same as "filifera" but color golden yellow.

1½ to 2 ft.	Each \$3 50	
2 to 2½ ft.	5 00	40 00
2½ to 3 ft.	7 50	60 00
3 to 3½ ft.	10 00	90 00

C. obtusa.

HINOKI CYPRESS. Tall growth, habit dense; foliage short and deepest green.

2 to 2½ ft.	Each \$6 00	48 00
4 to 4½ ft.	15 00	
6 to 8 ft.	Each \$25 00 to 40 00	
8 to 9 ft.	75 00	
Specimens. 10 to 16 ft. Each	\$100 00 to 175 00	

C. obtusa crispata.

YELLOW HINOKI CYPRESS. Bright Golden foliage, free habit.

2 to 2½ ft.	Each \$7 50	60 00
2½ to 3 ft.	10 00	80 00
3 to 3½ ft.	12 50	
4 to 4½ ft.	17 50	
6 to 7 ft.	25 00	
8 to 9 ft.	\$35 00 to 75 00	

C. obtusa lycopoides.

CLUBMOSS CYPRESS. Compact pyramidal form, foliage dense tufted; dark green.

6 to 9 ft.	Each \$25 00 to \$50 00	
-----------------	-------------------------	--

C. obtusa nana, and obtusa magnifica.

DWARF HINOKI CYPRESS. Very slow-growing, dwarf. Rich, dark green color. Useful in pots, in garden or in rich base plantings.

Specimens. 5 to 6 ft.	Each \$60 00	
Specimens. 6 to 7 ft.	75 00	
Specimens. 7 to 9 ft.	\$100 00 to 150 00	

C. obtusa gracilis.

GRACEFUL JAPANESE CYPRESS. Broad oval form with graceful bright green foliage.

Specimens. 4½ to 5 ft.	Each \$35 00	
Specimens. 5 to 6 ft.	40 00	
Specimens. 6 to 7 ft.	50 00	
Specimens. 7 to 9 ft.	\$75 00 to 100 00	

CHAMAECYPARIS (Retinospora) pisifera.

SAWARA CYPRESS. Tall, pyramidal shape; broad, flat foliage of deep, glossy green. A beautiful formal specimen.

		Per 10	
2½ to 3 ft.Each \$4 50	\$36 00	
3 to 3½ ft.5 00	40 00	
3½ to 4 ft.7 50	60 00	Per 100
4 to 4½ ft.8 50	68 00	\$540 00

CUPRESSUS (Chamaecyparis).

C. lawsoniana.

Tall growth; feathery effect. Dark green flat foliage. A handsome lawn tree.

8 to 10 ft.Each \$20 00 to 35 00

ILEX. See also pages 37, 38 and 82.

I. aquifolium.

ENGLISH HOLLY. Bright and cheery in Winter landscapes in protected corners.

3½ to 4	ft.Each \$12 50	100 00
4 to 5	ft.	15 00 125 00
5 to 6	ft.	17 50 150 00
6 to 7	ft.	25 00

I. opaca.

AMERICAN HOLLY. Well known and hardier than the English Holly. Effective in border groups or as specimens. Red berries.

Planting Note—The movement of Hollies is not difficult if proper care is exercised. They are delivered with a good ball, which should be planted firmly and well watered. If the further precaution is taken of cutting off the foliage—not stripping it, but cutting the leaf stem—a Holly will seldom fail.

			Per 10	Per 100
1½ to 2	ft.Each \$2 50	\$20 00	\$180 00

P. densiflora umbraculifera.

JAPANESE TABLE PINE. (Tanyosho.) So named because it forms a wide, soft green table-top. Lavender-candled buds in Spring.

Specimens rich in form and color.

8 to 10 x 8 to 12 ft.Each \$50 00 to 100 00

A Plan for the Development of the Property of
MR. ALVIN G. PENNINGTON

ITHACA PENNSYLVANIA

Scale 1 inch = 20 feet

January, 1926

ANDORRA LANDSCAPE DEPT.

WHAT A SATISFACTION to have a definite planting plan to work with and up to. What a saving in money and time when planting follows a definite thought, and how much more satisfactory the results.

PINUS excelsa.

BHOTAN PINE. Broad spreading growth, branches horizontal to drooping; foliage long; color silvery green.

		Per 10
3 to 4 ft.	Each \$5 00	\$40 00
4 to 5 ft.	6 50	52 00
5 to 6 ft.	9 00	72 00
6 to 7 ft.	10 50	82 50

Specimens. 12 to 25 ft. Price on application.

P. montana.

MOUNTAIN PINE. A rugged picturesque grower, broad spreading—more upright and open than the dwarfer "mugho."

3½ to 4½ ft. Each \$12 50 to \$20 00

Specimens. 6 to 8 ft. 25 00 to 35 00

Specimens. 10 to 14 ft. 40 00 to 75 00

P. montana, mughus.

MUGHO PINE. Dwarf, slow, compact and neat in habit; very hardy. Its compact form makes it desirable for formal planting.

6 to 7	ft.	30 00
7 to 8	ft.	35 00
8 to 9	ft.	45 00

HEMLOCKS are without question the most standard evergreen in general use. Best effects are secured when these are planted in groups or masses, particularly when native flowering small trees, or shrubs are used in connection with them, as they form a splendid background for Flowering Dogwood, Thorns, Native Rhododendrons and Azaleas give a pleasing effect when so used. As a hedge they are unexcelled. Hemlocks should not be planted as isolated specimens except in very protected positions.

EVERGREEN SHRUBS

Old English Boxwood

A Specimen 8 feet high, 10 feet spread

At Andorra We have a limited number of superb specimens from 4 ft. in height with a 4 ft. spread, to patriarchs of the Boxwood world 7 to 9 ft. in height and from 14 to 18 ft. spread. You are invited to inspect these specimens.

The Old English Boxwood Co. on the

York Road at Cockeysville, Maryland

OFFER the largest and we believe the finest collection of Dwarf Boxwood ever assembled. Over 7000 plants; *and every plant transplanted within the past three years insuring good roots.*

SPECIMENS in all sizes, from two and three foot dense pieces, up to regular and billowy pieces ten feet in height and twenty feet in spread.

SPECIMENS with all the charming character that is found in century old plants in superb condition.

ALSO HEDGES ready for your grounds in varying heights and widths.

RICH PLANTING EFFECTS can be secured by the use of Evergreen Shrubs and they are to-day general favorites for all types of planting. For foundation plantings about buildings, for massing as a background in the garden and for planting in shaded positions in the borders and under trees they fill a position which cannot be successfully occupied by any other class of plant material. Care should be used in the Winter protection of this material if in exposed positions. Nothing is better than a leaf mulch covering the ground for six inches deep to be removed in the Spring leaving only the refuse of the mulch to be forked into the soil about the plant for a Summer mulch.

For Border Planting in the Full Sunshine or in Partial Shade

HYBRID RHODODENDRONS—ANDORRA-GROWN OWN ROOT PLANTS

Andorra's Hybrids, in sizes 3 feet and under, are Andorra-grown from layers. This places *every plant on its own roots*, and every bud and shoot, no matter how low it may come on the stem, is the true variety. We believe this is the only stock of layer-grown plants offered.

--------------	-------------	-------

For the proper watering of trees
THE HYDROSPEAR

The importance of **properly watering** newly planted trees and shrubs is often neglected or very inadequately done because of the lack of a proper method of **getting the water down to the roots** where it will be readily absorbed.

THE HYDROSPEAR is a very handy implement for meeting this problem. By attaching it to the hose and inserting the spear-pointed end into the ground, the water can be placed at from 1 to 3 feet beneath the surface, where it will not only be readily available for the roots but will require less watering. It is a splendid insurance for all new plantings. In the case of large trees where a wide area has to be covered, it can be inserted at different points 6 or 8 feet apart and the whole soil area beneath the tree thoroughly watered.

We use and recommend them very highly.

THE PRICE IS ONLY \$3.75

AN IDEAL SMALL PLACE.

THE SWEET MAGNOLIA

MAGNOLIA GLAUCA

A BEAUTIFUL, small, shrubby tree, thriving in any good soil or situation, and useful for positions too damp for many trees. The rich, glossy green foliage is glaucous beneath, giving the whole a silvery sheen. The cream-white, waxlike flowers are highly fragrant, and the seed-pods which follow open to show brilliant coral seeds.

Used in masses with evergreens, in the shrub border, as hedges or for specimens, it gives added pleasure to any planting.

Flowering Apples

The Flowering Crab Apples, with their fragrant flowers in a great array of color from pure white to deep red, followed by attractively colored fruits, yellow, orange and red, are coming more and more into general favor for ornamental planting. They are ideal for the border, hillside or for garden specimens.

B. & B. \$1 00 each additional in all grades.

MALUS baccata.

SIBERIAN FLOWERING CRAB. Free, robust, round-headed tree with white flowers.

		Per 10

16 to 18 ft.; 3 to 3½ in.	10 00	80 00	725 00
16 to 18 ft.; 3½ to 4 in.	15 00	135 00	

POPULUS berolinensis. NEW.

VOLGA POPLAR. Habit of growth similar to the Lombardy Poplar.

6 to 8 ft.	Each \$1 50	12 00	95 00
8 to 10 ft.	2 00	16 00	130 00
10 to 12 ft.	2 50	20 00	160 00

P. bolleana.

BOLLEANA POPLAR. Rapid growth—fastigate form, olive gray bark, foliage green above, silvery underneath.

14 to 16 ft.	Each \$5 00		
16 to 18 ft.	7 50		

P. cordata.

SMALL-LEAF POPLAR of rapid growth, forming a large broad headed tree superior to the "Carolina Poplar."

7 to 8 ft.	Each \$2 00	16 00	130 00
8 to 10 ft.	2 50	20 00	160 00
10 to 12 ft.	3 50	28 00	220 00
12 to 14 ft.	4 50	36 00	260 00

P. nigra italica.

LOMBARDY POPLAR. Tall, rapid growing. Useful to break horizontal monotony, or grouped to screen objectionable views.

8 to 10 ft.	Each \$1 50	10 00	75 00
10 to 12 ft.	2 00	16 00	100 00
12 to 14 ft.	2 50	20 00	125 00
14 to 16 ft.	3 50	28 00	175 00
16 to 18 ft.	4 50	36 00	320 00
18 to 20 ft.	10 00	80 00	
20 to 22 ft.	15 00	135 00	

P. robusta.

FALSE LOMBARDY POPLAR. Narrow columnar habit; stout branches. Useful for formal planting.

12 to 14 ft.	Each \$2 50	20 00	135 00
14 to 16 ft.	4 50	36 00	

PRUNUS pissardi.

PURPLELEAF PLUM.

5 to 6 ft.	Each \$2 00	16 00	
6 to 7 ft.	2 50	20 00	

QUERCUS alba.

WHITE OAK. Broad, open head; in the Fall purplish-brown leaves, on spreading branches, held through Winter.

		Per 10	Per 100
6 to 7 ft.	Each \$5 00	\$45 00	\$400 00
7 to 8 ft.	7 50	67 50	600 00
8 to 10 ft.	10 00	90 00	800 00
10 to 12 ft.; 2 to 2½ in.	12 50	100 00	

Larger specimens. Price on application.

Q. bicolor.

SWAMP WHITE OAK. Vigorous; holds leaves till early Winter. Prefers moisture.

6 to 8 ft.	Each \$5 00	45 00
14 to 16 ft.; 3 to 4 in.	\$15 00 to 20 00	

Specimens. 18 to 25 ft. Ask for prices.

Q. cerris.

TURKEY OAK.

12 to 14 ft.; 2½ to 3 in.	Each \$20 00
14 to 16 ft.; 3 to 4 in.	25 00

Q. coccinea.

SCARLET OAK. Symmetrical and eminently fitting as a specimen tree, taking on the most gorgeous shades of brilliant scarlet in the Fall and holding its dried leaves during the Winter.

8 to 10 ft.; 1½ to 2 in.	Each \$7 50	60 00
12 to 14 ft.; 2¼ to 2½ in.	12 50	100 00
12 to 14 ft.; 2½ to 2¾ in.	15 00	135 00
14 to 16 ft.; 2¾ to 3 in.	20 00	
16 to 20 ft.; 4 to 6 in. B. & B. at \$20.00 per inch of caliper.		

Specimens. 7 to 9 in. and up. Prices on application.

Q. macrocarpa.

MOSSYCUP OAK. Fine habit and form. Tall with wide spreading head and massive branches; twigs of the branches are covered with a peculiar cork bark which is interesting.

10 to 12 ft.; 1½ to 2 in.	Each \$7 50	60 00
12 to 14 ft.; 2¼ to 2½ in.	10 00	90 00
14 to 16 ft.; 2½ to 3 in.	15 00	120 00
16 to 18 ft.; 3 to 3½ in.	20 00	160 00
16 to 18 ft.; 4 to 4½ in.	35 00	

Specimens. 6 to 10 in. caliper. Price on application.

Q. palustris.

PIN OAK. Graceful, spreading. Pyramidal habit; deeply cut leaves held late into Winter. Lawn or street.

10 to 12 ft.; 2 to 2½ in.	Each \$8 50	68 00	600 00
12 to 14 ft.; 2½ to 2¾ in.	12 50	100 00	
14 to 16 ft.; 2¾ to 3 in.	15 00	135 00	
16 to 18 ft.; 3 to 3½ in.	20 00	180 00	
16 to 18 ft.; 4 to 4½ in.	25 00		
16 to 18 ft.; 4½ to 5 in.	\$35 00 to 75 00		

Larger specimen trees. Tall and spreading, from 6 to 12 inches in diameter. Prices on application.

QUERCUS phellos.

WILLOW OAK. Rapid growth, rich green, narrow foliage.

		Per 10
7 to 8 ft.	Each \$7 50	\$60 00
8 to 10 ft.	10 00	80 00

Q. robur.

ENGLISH OAK. Rugged growth, forming a broad, round head; small foliage; green above and glaucous beneath.

7/8 ft.	Each \$12 50
--------------	--------------

Q. robur fastigata.

PYRAMIDAL ENGLISH OAK. Upright columnar growth; very formal; foliage dark green.

6 to 7 ft.	Each \$15 00
8 to 10 ft.	20 00

C. japonica candida. Cream.

2 to 2½ ft.	Each \$3 50	17 50	
2½ to 3 ft.	4 50	22 50	

DEUTZIA. crenata magnifica.

Clusters of large, very double, pure white flowers—very prolific.

4 to 5 ft.	Each \$1 00	5 00	
5 to 6 ft.	1 50	7 50	

D. gracilis.

SLENDER DEUTZIA. Dwarf. White flowers cover the entire plant.

15 to 18 in. Bushy	Each \$1 00	5 00	30 00
1½ to 2 ft. Bushy	1 50	7 50	40 00
2 to 2½ ft. Bushy	2 00	10 00	60 00

D. lemoinei.

LEMOINE DEUTZIA. Early bloomer; white flowers on upright branches.

2 to 3 ft.	Each \$1 00	5 00	40 00
-----------------	-------------	------	-------

D. scabra.

FUZZY DEUTZIA. Tall grower with double-white, bell-shaped flowers. Attractive foliage.

3 to 4 ft.	Each \$1 00	5 00	35 00
4 to 5 ft.	1 50	7 50	40 00
5 to 6 ft.	2 00	10 00	45 00
6 to 7 ft.	2 50	12 50	60 00

D. scabra candidissima.

SNOWFLAKE DEUTZIA. Vigorous, graceful grower; double white flowers. One of the best.

4 to 5 ft.	Each \$1 50	7 50	40 00
5 to 6 ft.	2 00	10 00	45 00

D. scabra, Pride of Rochester.

Tall; flowers tinted with pink.

2 to 3 ft.	Each \$1 00	5 00	30 00
3 to 4 ft.	1 25	6 50	35 00
4 to 5 ft.	1 50	7 50	40 00
5 to 6 ft.	2 00	10 00	45 00
6 to 7 ft.	2 50	12 50	60 00

D. scabra watereri. Double pink.

WATERER DEUTZIA.

4 to 5 ft.	Each \$1 50	7 50	
5 to 6 ft.	2 00	10 00	

D. scabra wellsi. Double white flowers.

WELLS DEUTZIA.

5 to 6 ft.	Each \$2 00	10 00	45 00
6 to 7 ft.	2 50	12 50	60 00

DIERVILLA sessifolia.

SOUTHERN BUSH HONEYSUCKLE. A shrub 4 to 5 ft. tall with spreading branches, yellow flowers in terminal clusters.

		Per 10	Per 100
1½ to 2 ft.	Each \$1 00	\$5 00	\$30 00
3 to 4 ft.	1 50	7 50	

D. trifida.

DWARF BUSH HONEYSUCKLE. A dwarf shrub spreading rapidly by underground shoots; yellow flowers in flat topped clusters. Unexcelled for planting banks.

1½ to 2 ft.	Each \$1 00	5 00	30 00
2 to 3 ft.	1 25	6 00	35 00
3 to 4 ft.	1 50	7 50	40 00

ELEAGNUS edulus.

JAPANESE ELEAGNUS. Large shrub with erect scaly, spiny branches. Leaves dark green above, silvery beneath. Fragrant flowers in April and May. Edible berries, pink with silvery scales.

3 to 4 ft.	Each \$1 00	9 00	50 00
4 to 5 ft.	1 50	12 50	75 00

EUONYMUS. See also pages 36 and 98.

EUONYMUS alatus.

WINGED EUONYMUS. Of Japanese character; brilliant scarlet foliage and red berries in Fall; tall, handsome shrub.

2½ to 3 ft. Heavy	Each \$1 50		
3 to 4 ft. B. & B.	2 50	20 00	160 00
Specimens. 4 to 5 ft. B. & B.	3 00	24 00	200 00
Specimens. 5 to 6 ft. B. & B.	5 00	35 00	300 00
Specimens. 6 to 7 ft. B. & B.	7 50	47 50	400 00
Specimens. 7 to 8 ft. B. & B.,			
Each \$10 00 to 15 00			

E. americana.

BROOK EUONYMUS. Tall, erect growth, foliage bright green. Fruit rose color with scarlet seed coats.

2 to 2½ ft.	Each \$1 00		
------------------	-------------	--	--

E. europaeus.

EUROPEAN BURNINGBUSH. Tall, erect shrub for border or evergreen planting; fruit bright scarlet.

4 to 5 ft.	Each \$1 50	7 50	60 00
5 to 6 ft.	2 00	10 00	70 00

rugosa alba. White. 2 to 3 ft.....	1 00	7 50
setigera. Prairie Rose. 2 to 3 ft.....	75	5 00

ANDORRA LANDSCAPE DEPT.

HARDY HERBACEOUS PERENNIALS

N. B.—Quantities of 5 and 50 OF A VARIETY will be furnished at the 10 and 100 rates, respectively.

LESS THAN FIVE PLANTS OF ONE SORT, see price schedule, page 102.

THERE is a strong appeal in the gardens of old farmhouse and cottage, with the glowing yellow and orange Day-lilies, bright flowered Phlox and Peonies, and their show of hardy Chrysanthemums; a demonstration of the ease with which these plants are grown and the little care they require when one thinks how little time the busy country housewife can spend in gardening. The old-fashioned perennials have been enriched with many improved varieties and species, and every corner of the grounds can be kept bright throughout the whole growing season; the tall growing varieties can be effectively planted in the shrubberies, their flowers showing

against the background of evergreen or shrub, and the lower sorts blending the edge of shrubbery and lawn in naturalesque borders, or the woods edge made gay with Asters, Foxgloves, Ferns and many other shade-loving plants.

Of flowering plants, two things are demanded—Varieties which will brighten our lawns and gardens, and which can be cut for house decoration—these hardy herbaceous plants reward us bounteously in both requirements. The height, color and flowering season of each variety are given in the following list.

At \$2.50, 10-rate, single plants 35c.

At \$3.50, 10-rate, single plants 50c.

At \$5.00, 16-rate, single plants 75c.

At \$10.00, 16-rate, single plants \$1.50.

ACHILLEA filipendula (Noble Yarrow). Yellow.	Per 10	Per 100
July. 2 to 2½ ft.	\$2 50	\$18 00
A. millefolium roseum, var. Cerise Queen. June to September. Amaranth-red. 1½ ft.	2 50	18 00

HARDY FERNS

50c each; \$3.50 per 10; \$25.00 per 100
in not less than 5 of a variety

ADIANTUM pedatum (Maidenhair Fern). The most graceful of our Ferns, attaining a height of from 12 to 18 inches in moist, shady locations. It requires a well drained situation. Plant about an inch below the surface of the ground.

ASPIDIUM acrostichoides (Christmas Fern). An evergreen species about a foot high, with deep green fronds. Easily grown in shade, in good garden soil well drained. Plant with the new crowns or buds just at the surface.

A. aculeatum braunii (Prickly Shield Fern). A rare Fern with light, glossy green foliage and when grown in very rich soil attains a height of 12 to 15 inches. It is spreading in its habit, similar to the Christmas Fern. Plant with the new crowns just above the surface.

A. cristatum (Crested Wood Fern). For rather wet places, attaining a height of about a foot. Fine for lining walks in moist situations or planting in colonies in shade. Set the crown just above the surface.

A. marginale (Evergreen Wood Fern). Evergreen. Dark green fronds which are rather stiff in appearance. Used for ground-covers under shrubbery. Plant the crowns just above the surface.

A. noveboracense (Shield Fern). A slender Fern growing about a foot high. Fronds 3 to 4 inches wide. For moist, shady locations. Pale green foliage. Should be planted just below the surface of the ground.

ASPLENIUM filix-foemina (Lady Fern). Handsome Fern, 2 to 3 feet high, with finely cut foliage. For moist places in sun or shade, in good, rich soil.

CAMPTOSORUS rhizophyllus (Walking Leaf). For rocks where always shaded. Plant with plenty of leaf mold.

DICKSONIA punctilobula (Gossamer Fern). For either sun or shade. It propagates itself by underground root-stalks.

ONOCLEA sensibilis (Sensitive Fern). For wet places, or in moist soils in sunny locations or shaded spots. Height 1 foot.

OSMUNDA regalis (Flowering Fern). Pale green fronds. Will grow in still water, 2 to 3 inches deep, setting the crowns just above the water; also in moist soils, sun or shade. Grows 2 to 3 feet high.

PELLAEA atropurpurea (Purple Cliffbrake). Useful for wall planting. The roots cling to crevices in the stone. Fronds 4 to 12 inches long.

POLYPODIUM vulgare (Common Polypody). Evergreen. For rockwork. 4 to 10 inches high, forming dense mats. In planting, set the crown just beneath the soil.

PTERIS aquilina (Common Brake). For light, sandy soil or in thin woodlands, in either sun or shade.

WOODWARDIA angustifolia (Chain Fern). For moist garden soil, or rock-gardens. 12 inches high.

FLOWER GARDEN—ALDEN PARK MANOR.

HARDY CHRYSANTHEMUMS

When frost has browned the other flowers of the garden, these hardy plants burst forth in a profusion of bloom, in colors which seem to catch the most delicate tints and shades of bronzing leaf and gorgeous Autumn sunset, while some foretell the purest white of coming snow, and pink of purpling shadows.

Planted in the hardy garden, border or lawn at edge of shrubbery, they will yield a wealth of bright flowers in late Autumn, and fill the house with cut flowers.

50c each; \$2.50 per 10; \$20.00 per 100

PAEONIA—PEONIES

PRICES. The prices given in this list are for 1-year-old plants. In most varieties we can supply 2- and 3-year-old plants at proportionate prices.

In lots of five (5) or more of a variety 20% less than the each rate.

DOUBLE PEONIES

		Each
Flesh.	Adlae Adamson. Flesh rose	\$0 75
Purple.	Ambrose Verschaffelt (Calot 1886). Deep crimson-purple; large, cup-shaped bloom, very full and fragrant	75
Red.	Atrosanguinea (Calot 1858). Purplish scarlet, shaded with blackish violet; large, semi-double bloom, showing golden stamens	1 00
Flesh.	Carnea maxima (Parmentier 1850). Lilac-flesh, large bloom	75
Carmine.	Charles Verdier. Carmine flushed with bright violet; lilac reflex; full bloom, bright and handsome; dwarf habit, free bloomer, late and fragrant	50
Red.	Comte de Diesbach (Calot 1873). Purplish crimson, very full center; good bloomer; early	1 00
White.	Couronne d'Or (Calot 1873). Fine white with yellow reflex, center petals sometimes bordered with carmine; the center showing a circle or crown of golden stamens; large imbricated, ball-shaped bloom	1 50

White.	Festiva Maxima (Miellez 1851). Pure snow-white, shading to creamy white at base of petal, some petals flaked with crimson-purple. Blooms extra large, of shell shape, with broad petals. Early and fragrant. A variety of robust habit.....	Each \$1 00
White.	Globosa (Kelway). Paper-white, blotched with crimson. Large full bloom of pure white; very close to P. Festiva Maxima in habit of growth and color of bloom, but blooms later	1 00
Red.	Grandiflora rubra (Lee's). Rich violaceous red; enormous blooms of good form. A strong grower; very late	1 00
Rose.	Lady Bramwell (English origin). Silvery rose. Bloom of good size and substance, free bloomer and fragrant. Early	75
Blush.	Lady Winborne (Kelway). Pearly blush	1 50
Rose.	Louis d'Estree. Deep rose-pink, fragrant	75
Cherry.	Louis Van Houtte (Calot 1867). Bright purplish cherry-red; large, full globular bloom; fragrant; late	50
Pink.	Marie Houillon (Calot 1869). Large satiny rose-pink. Very good bloom. Late	50
Flesh.	Madam Bollet. Flesh rose, white reflex	1 50
Pink.	Mme. Chaumy (Calot 1864). Soft satiny rose-pink, shaded with bright rose, clearer color on border of petals; center flesh. Late; fragrant....	50
Pink.	Mme. Coste (Calot 1873). Guard petals soft shell-pink, center tinted with glossy sulphur-white, sometimes with crimson stain; tufted.....	75
Flesh.	Mme. Courante (Courante 1850). Rich flesh-color, with yellow stamens	50
White.	Mme. de Verneville (Crousse 1885). Sulphur-white; very full bloom, well furnished, with broad guard petals and very compact center. Beautiful and early. Fragrant	1 00
Cherry.	Mme. Lebon (Calot 1885). Brilliant cherry-red, with silvery reflex. Enormous flower; early; fragrant	75
Blush.	Mme. Vilmorin (Dessert). Very fresh, glossy flesh, unicolor. Flowers very double, with high center of broad petals; extra	1 50
Carmine.	Modeste Guerin (Guerin 1845). Rosy carmine, purple tinted towards the center. A large, full globular bloom; fragrant. Early	75
Rose.	Rose Quintal (Calot 1857). Transparent carmine-rose, with salmon tintings; dwarf	35
Crimson.	Rubra Superba (Richardsons). Brilliant dark crimson. Full, double, large, fragrant.....	1 00
Crimson.	Rubra Triumphans (Delache 1854). Dark purplish crimson, showing golden stamens; strong-growing, broad-petaled variety; semi-double.....	75

Rose.	Saturnalia (Origin unknown). Lilac-rose, with silvery reflex; enormous flower of fine form.....	Each \$0 50
Rose.	Sidonie (Mieliez 1856). Lilac-rose, shading darker to the center	50
Rose.	Sosthenes (Kelway). Light rose edged with white	75
Tricolor.	Tricolor grandiflora (Buyck 1843). Pink center, intermixed with salmon and pink. A high-built bloom; very fragrant. Free-flowering habit; late	50
Violet.	Violacea (Verdier 1856). Deep purple-violet; blooms large and full; distinct color.....	50

SINGLE PEONIES

The single varieties have been much neglected in favor of the double sorts, but this should not be, as they are quite as showy, and as single specimens or for massing in the shrubberies they are unexcelled. The blooms, from 6 to 8 inches in diameter, are held well above the foliage on stems sufficiently strong to hold them erect, even after heavy rains, when the double varieties droop to the ground. The flowers are of delicate texture and coloring, and if cut when in the bud, open well in the house and are quite dainty and desirable, especially for table decoration. All have prominent golden stamens.

Pink.	Amiable. Delicate rose pink.....	Each \$1 50
Purple.	Comus. A rounded bloom of light purple; free-flowering	75
Purple.	Eclat. Deep purple. A strong grower with wide petals	75
Rose.	Josephine. Bright rose; large loose flowers, with broad petals. A strong grower.....	1 00
Crimson.	Lucrinus. Medium-sized flowers of rich crimson. Tall	75
Crimson.	Mardonius. Bright crimson blooms of round form; very bright coloring. A dwarf, compact grower	75
Lilac.	Medusa. Rosy lilac.....	75

OTHER SPECIES OF PEONIES

Officinalis rubra plena. This is the very early deep crimson double variety that is so generally used by florists for cut-flowers in early April. It is the third species to bloom...	1 00
Tenuifolia plena. This is the double form of tenuifolia . The bloom is of the same color, but the compactness of the bloom makes the color seem much deeper.....	1 00

N. B.—While the Peonies transplant best in August and September, they can also be moved safely in October and in the Spring months, March or early April, before they commence growth. It is possible to move 1-, 2- or 3-year-old plants in the Spring and secure bloom the first season. Our collection is large, and we will gladly select assortments that will cover a full season of bloom.

PHLOX

PHLOX PANICULATA—HYBRID PERENNIAL PHLOX

A succession of flowers of greatest beauty from early July until frost, in softest tones of pink and rose, salmon, mauve and silvery white in great paniced blooms, will brighten the hardy border of mixed varieties of Phlox. Easy of culture, and perfectly hardy, the plants can be used at the edge of shrub border or in the garden, spaced about eighteen inches apart.

THE FOLLOWING CHOICE VARIETIES

50c each; \$2.00 per 10 of a variety; \$15.00 per 100, not less than 5 of a variety at the 10 rate

- Argon.** Dwarf; early. Large panicles of large flowers, delicate rose-shaded salmon.
- Beacon.** Cherry red.
- B. Comte.** Tall; medium. Intense rich purplish crimson.
- Candeur.** Dwarf; early. Pure white.
- Caran d'Ache.** Dwarf; early. Rosy carmine, tinged with rose.
- Champs-Elysees.** Medium; early. Intense rich purple-crimson.
- Eclaireur.** Tall; early. Crimson-purple, rosy white center.
- Elizabeth Campbell.** Salmon-pink, light shadings, dark eye.
- Europea.** Medium. White with red edge.
- Frau Buchner.** Dwarf. Pure white.
- Girondin.** Medium; early. Dark carmine-rose, shading blush to the center.
- Henri Murger.** Medium. Large, pure white, large carmine center.
- Independence.** Tall; early. Pure white, large flowers.
- La Vague.** Medium; early. Silvery rose.
- Le Feu du Monde.** Medium; late. Flame color.
- Madame P. Langier.** Medium; early. Salmon-pink, dark eye.
- Miss Lingard.** Tall; early. Fine, free-flowering, white.
- Miss Verboom.** This is the rose-pink **Miss Lingard**. June.
- Molieri.** Bright rose, purple shading. Tall.
- Mrs. Jenkins.** Tall; white.
- Peach Blow.** Delicate pink, rose center.
- Prof. Virchow.** Medium. Carmine, overlaid with orange-scarlet.
- Rynstrom.** Medium. Carmine rose.
- R. P. Struthers.** Tall; early. Bright salmon, crimson eye.
- Thor.** Medium. Deep salmon pink, with scarlet glow. Aniline red eye.
- Widar.** Dwarf. Reddish-violet. White center.

PHLOX—See page 112 for creeping varieties.

Sunoco Spray Oil

A heavy oil which readily gives a permanent and uniform emulsion when mixed with water. For all scale insects, mealy bugs, woolly aphids, mix at strength of one part oil to twenty parts of water (1 qt. to 5 gallons). This also kills the eggs and prevents Summer infestations of red spider, aphids and many other insects. January, February and March are favorable months for this treatment, but the late Fall, just after the leaves drop, is just as good. It is also used as a Summer spray and as a spreader for Bordeaux, lead arsenate or nicotine sulphate. Do not use with lime sulphur.

1 gallon cans	@	\$1.50	
5 gallon cans	@	5.75	
15 gallon drums	@	.70	per gallon
30 gallon drums	@	.60	per gallon
50 gallon drums	@	.50	per gallon

COATED ARSENATE OF LEAD. Patented. A thorough protection against JAPANESE BEETLES. One thorough spraying will protect the foliage during the Beetle season. Coated Arsenate of Lead has great sticking qualities, one spraying will be sufficient protection during the season. Use at the rate of five (5) pounds to fifty (50) gallons of water, or, one-half (½) pound to five (5) gallons.

1 lb. jar	@	\$0.60	25 lb. package ...	@	\$6.25

FERTILIZERS

PEAT (Holland Peat). This is very finely ground. Excellent for potted plants or for Azaleas, Rhododendrons and similar plants.

The brand we offer is the same that we use for our own plants, and we believe is the best for plant growth.

Do not confuse Holland with German Peat.

Per bale	@	\$4.00	
5 bales	@	3.50	per bale
10 bales	@	3.00	per bale

Car load lots price on application.

FINE GROUND RAW BONE. For lawns apply 1000 lbs. per acre. Bag of 200 lbs.@ \$7.00
Per ton (2000 lbs.)@ 57.50

F. & I. TOBACCO. Fine ground, excellent as a grass fertilizer. Bag of 100 lbs.@ \$4.50
Per ton (2000 lbs.)@ 45.00

"DAVEY" TREE FOOD. A well balanced fertilizer for trees, shrubs. 50 lb. bag@ \$5.00

SHEEP MANURE, PULVERIZED. For lawns, Perennials and garden flowers, an excellent fertilizer.
